

# NKV-550

Series Ventilator System

# Treasure Every Breath®

Nihon Kohden's overriding philosophy inherent to the NKV-550 design is to Treasure Every Breath®. Our focus is to provide clinically relevant innovations and solutions for patients requiring mechanical ventilation.

## Seamless Care

With the NKV-550, patients can be transitioned seamlessly between invasive and non-invasive ventilation and high flow oxygen therapy, and is designed for use with all patient sizes.

## Lung Protection

The NKV-550 is created on the lung protective approach to ventilation and features the Gentle Lung® Suite of applications to provide clinically relevant, easy to use tools for the open-lung approach to ventilation.

## Protective Control®

Protective Control® provides the clinician a safe, fully functional second user interface to easily implement needed ventilator setting changes when treating patients with contagious diseases or who are undergoing a radiologic procedure while remaining within sight of the clinician.

## Connectivity

The NKV-550 can transfer critical patient ventilation data to the hospital information system for charting and/or data analytics purposes.

## Workflow Optimization

The NKV-550 offers highly customizable screen configurations enabling the ventilator to fit into your paradigm rather than require you adapting to it. Our App based design provides guided processes to help create a more streamlined, systematic way for clinicians to optimize care of their ventilated patients.

## Reduced Cost of Ownership

The NKV-550 requires a simple, low-cost preventative maintenance biannually.
